The California Department of Justice, in conjunction with policing experts Jensen Hughes, invite the BART community to participate in a listening session to hear community perspectives about their relationship with the BART Police Department (BART PD). The Department of Justice is working with the BART PD to independently evaluate reforms put in place by BART PD and the BART Board of Directors, with the goal of improving BART PD policies and practices where applicable.

At this listening session, the team will hold a virtual community meeting with breakout sessions to gather your initial perspectives regarding BART PD.

We will seek your opinion on what is working for BART PD, what you think needs improvement and what you expect from our evaluation efforts. Our goal is to understand the BART community's interests and desired policing reform outcomes.
